

Sparky's Scavenger Hunt for Poisons

Walk from room to room in your home and write down the name of anything that could make you sick if you eat it, drink it, smell it, or even touch it! But hands-off! Poisons should be handled by grown-ups only. Some poisons are so dangerous that they need to be kept in a locked cabinet, out of the reach of children. When you're done, please visit my "What's Cool" page at www.sparky.org and tell me about your scavenger hunt.
